EXPERIENCE

Sr. Laravel Developer   **FEB 2023 – Present**

Spellenx Innovations

Ahmedabad, India

- Developed 4+ projects with a focus on fast, efficient development, successfully managing some projects independently.
- Proficient in working with payment gateways and developing secure, scalable RESTful APIs.
- Acquired senior-level expertise in Laravel development, including cron jobs, filament admin panels, queues, race conditions, and other advanced concepts.
- Mentored and trained junior developers, conducted lectures, and guided them to improve their skills and development efficiency.

Jr. Laravel Developer   **FEB 2022 – NOV 2022**

Adit Microsys

Ahmedabad, India

- Started as an intern for 5 months and was promoted to Junior Laravel Developer based on performance and skills.
- Developed 2+ projects using Core PHP and Laravel, gaining hands-on experience in backend development.

PROJECTS

1. Tiffit: Zomato like Service (Spellenx Innovations)

Technologies: Laravel, Laravel Reverb (Web Socket), Frest Admin Template,

- Designed a food ordering service with two distinct flows: Tiffin and Insta (similar to Zomato). Integrated PhonePe payment gateway and utilized Laravel Reverb for real-time updates. Developed the frontend using the Frest Admin template and created the Insta Partner flow for franchise management and also integrated PORTER delivery service for delivery service partners.

2. Qsync - (Tools for managing tasks like JIRA OR CLICKUP): Spellenx Innovations

Technologies: Laravel,Filament (Full stack framework for laravel)

- Built a project for raising test tickets, tracking bugs, and managing tasks for developers, QAs, project managers, and super admins. Enabled real-time project analytics for better tracking and efficiency.

3. ShoeSmasher - (Ecommerce Site)

Technologies: Laravel, jQuery, AJAX

- Developed a full-featured eCommerce site for shoe ordering, including cart management, payment integration, and delivery tracking, covering all essential eCommerce functionalities.
